Sustainable Cities and Societies Policy in Line with the Sustainable Development Goals

FMIPH supports the culture, sports and education of the people, provides opportunities for the promotion of sustainable transportation, makes the campus open to the public by maintaining the cultural heritage areas, carries out projects for the recording and protection of cultural heritage, and provides housing services to its personnel. / students, preparing the masterplan of the campus in line with its development and transformation goals and sharing it with all its staff, in-house in masterplan studies It is an institution that negotiates with its external stakeholders and has a pedestrian-oriented, green and sustainable campus in all seasons. FMIPH "Sustainable Cities and Societies" policy covers the following issues.

- It is an interaction area where cultural events are shared with the public. It ensures the continuity of culture and art activities, organizes art events with participation throughout the country.
It opens its historical buildings to the public and organizes educational workshops to attract the public's attention.
It includes Fine Arts and cultural heritage in its budget and carries out its works.
- It opens the Campus, which is a landscape area and natural heritage site

with all endemic plants, to the use of the public.

- It includes permanent exhibitions within the campus.
- It carries out projects with the goal of “An All Seasons Green and Sustainable Campus” and makes them available to the public.
- It is a pedestrian priority campus.
- It shares its printed materials with the public, the university database, and the university's publications with university staff and students.
- It encourages the public, especially university staff and students, on and off-campus sustainable transportation.
- It carries out projects related to the protection of cultural heritage.
- It has a special unit to promote and technically support distance education. It also carries out the remote / rotational working system for its personnel.
- It provides affordable housing services to its personnel.
- It offers affordable accommodation to its students, and carries out activities that encourage the relevant official institutions to offer new accommodation areas in order to meet the accommodation needs of more students.
- mission and vision of FMIPH, a master plan has been prepared and shared with all its staff in order to respond to future needs . It will take its final shape with suggestions from internal and external stakeholders.
- It carries out on-site renovation works of FMIPH Medical Faculty Hospital.

FMIPH carries out and will continue to do sustainable work in encouraging the public to cultural activities and sustainable transportation, presenting educational materials, and opening the buildings of historical value to their use. It offers affordable accommodation to its staff and students.
